

Post-implementation Reviews: Required

Note

On 1 July 2023, responsibility for post-implementation review (PIR) evaluation and monitoring was transferred to the Australian Centre for Evaluation (ACE). For queries regarding PIR status and broader advice on the management of 'ex-post' evaluations in the Australian Public Service, please refer to the [Commonwealth Evaluation Policy and Toolkit](#), and contact the ACE on evaluation@treasury.gov.au.

Post-implementation Reviews (PIRs) are required for proposals that have substantial impacts, for proposals granted an exemption from the Australian Government's Impact Analysis requirements by the Prime Minister, and for proposals that were non-compliant with the Government's Impact Analysis requirements. PIRs should be completed within two years of implementation where exceptional circumstances were granted or a proposal was assessed as non-compliant. PIRs should be completed within five years of implementation for proposals likely to have a substantial impact.

The status of Post-implementation Reviews (PIRs) required is updated regularly as the Office of Impact Analysis (OIA) receives information from departments and agencies.

As at 25 February 2026, fifteen PIRs are yet to be completed. Of these, three are currently non-compliant as they have not been completed in the required timeframe.

Information on PIRs that are completed and published can be found in the associated OIA report [Post-implementation Reviews: Completed and Published](#), located on the OIA website.

Please note that all Department and Agency names in this report reflect their name at the time that the PIR requirement came into effect.

The [post-implementation review guidance note](#) provides advice on the preparation of PIRs and compliance with the Government's requirements.

Note that specific PIRs resulting from the Prime Minister's exemption granted 18 March 2020 for all urgent and unforeseen Australian Government measures made in response to COVID-19 will not be completed individually. For more information, see: <https://oia.pmc.gov.au/published-impact-analyses-and-reports/prime-ministers-exemption-covid-19-related-measures>.

Proposal	Reason for PIR	Implementation date	Due date	PIR compliance
<p>Nature Repair Market^a</p> <p>This voluntary market would establish and allow the trading of Biodiversity Certificates, for undertaking successful projects that provide biodiversity outcomes such as the regeneration of landscapes, and the protection and enhancement of remnant vegetation and habitats for native species.</p>	Agency commitment	March 2025	March 2030 ^b	Compliant

a Note that this replaces the requirement for the PIR for the 'Pathway to a National Voluntary Biodiversity Stewardship Market'.

b The Implementation date has been updated from February 2022 to March 2025 and due date has been updated from February 2027 to March 2030. Note, the Department has opted to complete a PIR. This PIR was not required under the *Australian Government Guide to Policy Impact Analysis*.

Department of Climate Change, Energy, the Environment and Water

Table 4. Department of Climate Change, Energy, the Environment and Water

Proposal	Reason for PIR	Implementation date	Due date	PIR compliance
<p>Expansion of functions and powers of the Australian Energy Market Operator (AEMO)</p> <p>Energy Ministers agreed the Government will expand the functions and powers of AEMO under the National Gas Law to ensure it can address east coast gas system reliability and supply adequacy issues ahead of Winter 2023.</p>	E/c	Oct 2022	Dec 2025 ^a	Compliant
<p>Reforms to the Safeguard Mechanism</p> <p>Changes to the Safeguard Mechanism to support Australia's largest industrial greenhouse gas emitters to gradually and predictably reduce their emissions, delivering on an election commitment within the Powering Australia plan. The reformed Mechanism will help Australia achieve a 43 per cent reduction of emissions on 2005 levels by 2030 and net zero emissions by 2050. Under the three proposed options, Safeguard covered emissions take on a proportional share of the national emissions target to 2030 and reach net zero by 2050.</p>	Substantial Impact	May 2023	May 2028	Compliant

E/c Exceptional circumstances were granted by the Prime Minister.
a Due date has been updated from October 2024 to December 2025.
