Ms Audrey Chen
Manager - Impact Analysis, Policy and Analysis
Australian Building Codes Board

Dear Ms Chen

Decision Regulation Impact Statement – Increasing the Stringency of the Commercial Building Energy Efficiency Provisions in the 2025 National Construction Code

Thank you for sending the Decision Regulation Impact Statement (DRIS) for the above mentioned proposal for the Office of Impact Analysis' (OIA) formal assessment under the *Regulatory Impact Analysis Guide for Minister's Meetings and National Standard Setting Bodies* (June 2023) (the Guide).

The Regulation Impact Statement (RIS) contains an adequate level of analysis, commensurate with the significance of the impacts for a Decision RIS. The OIA notes the Decision RIS is informed by the Consultation RIS and provides details of the approach to address issues raised during the public consultation period (1 May to 1 July 2024).

If you have any queries please feel free to contact the OIA.

Yours sincerely

Lex Williamson
A/g Executive Director
The Office of Impact Analysis
